1. Introduction

1.1 Purpose

The purpose of this visit to Madang Province was to provide:
- Training/workshop
- Technical Support

to Madang Provincial Treasury and the District Treasury Staff.

This was aimed at addressing capacity gaps identified by the PCaBII Management. The support to Madang Province started on the 14th and ended on the 18th of May, 2012.

This was part of the program’s implementation of the “Exit Strategy” to progressively offer the support to non PCaB Provinces identified by PDFMD.

1.2 Staff who took part in the Financial Management workshop.

</table>
Venue.
Mot Guest House – Conference Room.

Date:
14th to 18th May, 2012

Facilitators:
1. Witari Tauye – Training & Co-ordination Support Advisor (PCaB)
2. Francis Gumembi – District & LLG Support Advisor (Western Prov).
3. Philip Angopa – Provincial Support Advisor (EHP)
2. Daily Sessions

2.1 Day One (Monday – 14\textsuperscript{th} 5/2012).

Because of the huge number of participants, a proper venue had to be identified before this workshop could start. Fortunately, a newly built guest house had big Conference set-up. All other venues and hotels conference room were booked out for that week. We were to use the new Regional Office Conference Room with the approval from the FAS – PDFMD but because there were no tables and chairs so we had to use MOT PLACE – GUEST HOUSE Conference room.

Official opening of the workshop took place at 1:00pm and Provincial Treasurer had the honor of officially opening the workshop for that week. A total number of twenty four (24) participants took part in this workshop. The Provincial Treasurer had to seek the Provincial Administrators approval to have all the District Treasury Offices closed for that week and it was granted.

From 2:00pm to 4:00pm was basically getting to know the staff and at the same time interviewing the staff about their operations and etc. Part of the discussion was on issues affecting preparation of Annual Financial Statement and PGAS Bank Reconciliation. By understanding their issues we were able to tailor our training/workshop to address their situations.

2.2 Day Two & Three (Tuesday 15\textsuperscript{th} & Wednesday 16\textsuperscript{th})

Annual Financial Statement.

Participants were asked in advance to bring in their own data (Revenue Vote Summary, Expenditure Vote Summary & Trust Summary) for this session on Annual Financial Statement but none of them ever came with their downloaded data from PGAS.

Reasons being:-
1. 90\% of the District PGAS Computer is standalone and most of them only have the Main Screen & the PGAS Server.
   Most of the Floppy Drives are obsolete.
2. Data cannot be downloaded because the only way to download data is only when a PC or a Laptop is hooked up to the main PGAS Server.

Problem identified are:-
1. District Treasury Staff lack the knowledge of the steps in downloading data
2. PC’s and Laptop not hooked up to the Main PGAS Server.
2.2.1 PGAS Technical Support.

After identifying the entire problem, Training Co-ordination Support Advisor came up with a work plan to visit the nearby District Treasury office and including the Provincial Treasury Head Quarter to assist in configuring and installing netterm to all the PC’s and even the Laptops to be hooked up to the Main PGAS Server.

1. Tuesday - 12:00 to 2:00pm Madang District
2. Wednesday - 12:00 to 2:00pm Bogia & Middle Ramu District
3. Thursday - 12:00 to 2:00pm Madang Provincial Treasury

All the PC’s & Laptop were configured and hooked up to the Main PGAS Server.

Secondly, whilst doing that, at the same time a software called (CoreFtp) was installed in the PC’s and Laptop and a 30 minute session was conducted to each officers how to download data using CoreFTP software.

2.2.2 Annual Financial Statement Preparation Session.

Despite those set back, TCSA had a sample data for training which the facilitators used that to conduct the training on how to compile Annual Financial Statement.

Start of day two (Tuesday), TCSA introduce the new Control Sheet Template introduced by PDFMD division to the participants and the brief overview on AFS preparation.

PSA – EHP than took over the session and DLSA – Western assisted for the entire day whilst I attended to the PGAS Technical Support on the three District Treasury and the Provincial Treasury.

The Annual Financial Statement training was in this manner:-

i) How to Complete a Control Sheet using data extracted from Trial Balance
ii) Converting Data(EVS, RVS & Trust Summary) downloaded from PGAS into Excel
iii) Manipulating Data in Excel and having it ready to be linked into the Financial Statement Format. Advance Excel Tool called PIVOT TABLE was introduced and participants were thought how to use that tool to manipulate data in Excel.
iv) Linking of Data into its respective statements in the Annual Financial Statement Format.
v) Balancing of the Annual Financial Statement.
2.3 Day Four (Thursday 17\textsuperscript{th} May, 2012)

Morning session was basically recapping on the session on Annual Financial Statement and at the same time completing of all the exercises related to Annual Financial Statement.

2.3.1 Email Accounts. (Facilitator: DLSA – Western).

Participants were introduced to:-

- Setting up the Digicel Modem on their Laptops
- How to gain access to internet
- How to set up email logins (account)
- How to use email facility to send & receive emails
- How to use other features such as attachments and etc.

Unfortunately, reception was very bad so it did affect this session. DLSA – Western had to create email addresses for participants after hours and distributed to them for use at their own time.

2.3.2 MYOB – DSIP & Advance Register (Facilitator: DLSA – Western)

Introduction to MYOB to enhance PGAS reporting in DSIP reporting and how to maintain a Advance Register by using MYOB Software as a complimentary tool to PGAS.

Participants were taken through:-

i) How to set up DSIP Chart of Accounts in DSIP
ii) How to set up Advance Register in MYOB

Brief demonstration on how to:-

i) Capture data in MYOB for those same information inputted into PGAS.
ii) How to produce reports generated by MYOB.

Each District had chance of creating their respecting DSIP Accounts using MYOB. Very interesting session but time was against us.
2.4 Day Five (Friday 18th, May 2012)

PGAS Bank Reconciliation (Morning Session) – Facilitator TCSA.

The revised Bank Reconciliation Template was introduced to the participants. A hands on exercise was given to each participant to complete by using the revised template.

It was a eye opener for the District Staff because the Template shown to them actual automated a lot of manual task that they are used to. Scenarios such as Mismatch Cheques, Underpayment, Over Payment, Under Banking, Over Banking etc. which used to be a unsolved issue for many as to how it is captured in Cheque Reconciliation Listing and how it should be captured in the Bank Reconciliation Format especially in schedule number eight (8). All that was shown to them by way of practically compiling a month’s Bank Reconciliation and balancing it off and seeing the effects of those transaction. A practical exercise was designed by TCSA to address those different scenarios was used in this exercise.

Unfortunately, there were a lot of exercise to be completed but the time was against us.

As expressed by the participants that, the template was very easy to use and it is user friendly.

#### Bank Reconciliation 1st Baseline Assessment

![Bar chart showing participants' performance]
4. **Technical Support to District Treasury & Provincial Treasury Office.**

4.1 PGAS Technical Support to District Treasury Office.

Because of time factor I had to use my lunch hour break to attend to PGAS related issues. I only attended to those Districts who were located at the Provincial Treasury Office and Madang District Treasury whose office is situated within Madang Town.

i) Bogia District Treasury
ii) Middle Ramu District Treasury
iii) Madang District Treasury
Including Madang Provincial Treasury Office.

4.2 Achievements

1) PC’s & Laptop hooked up to Main PGAS Server.

For years those District Treasury had problems in committing claims, processing cheques, doing bank reconciliation by using only one terminal(Main PGAS Screen) but now they are able to use additional PC’s and even Laptops to do their day to day activities.

In the Provincial Head Quarters, key officers were not able to access PGAS from their work station but now they are able to access PGAS from their workstation.

2) Data Download.

Now, that District Treasury and the Provincial Treasury Officers can be able to download Data. Previously it use to be a problem.
5. **Issues/Observations**

The general assessment of knowledge and skill of participants shown that most of them have lack the knowledge to do their job, but at the same time they encounter some difficulties when they want to produce reports, set specific issues with their current accounts, review PGAS, etc. It seems that a complementary practical training (problem-solving workshops) needs to be developed in a similar way that we performed in this mission.

1. **Issues**
   - Lack of Basic Computing knowledge
   - Lack of Basic PGAS Bank Reconciliation process in the System
   - PGAS System related problems
     - * Cheque Reconciliation Listing
     - * Cash Book
     - * Month End Roll-Overs
     - * Managing Cash Advance
     - * Maintaining of DSIP Ledgers
     - * PGAS Data Load
     - * Networking of stand-alone PC’s & Laptops to the main PGAS Server.
   - Effective way of producing:
     - * Annual Financial Statement
     - * PGAS Bank Reconciliation

2. **Outputs**

Skills & Knowledge Transfer
The following skills & knowledge were transferred to the officers.

i) Compiling PGAS Bank Reconciliation
ii) Using PGAS Bank Reconciliation Options in the system to do cheque presentations and eventually obtaining final Cheque Reconciliation Listing (List of unpresented cheques)
iii) Basic PGAS skills & knowledge imparted to the participants especially on how to download data.
iv) New skills imparted on how to compile Annual Financial Statements especially the Control Sheet which was introduced by Accounting Framework.
v) Skills & Knowledge obtained on the Use of MYOB Package as a tool to enhance DSIP Reporting, Maintenance of Advance Register etc.
vi) Participants introduce on how to use Email Facility using Modems.
3. Observations

1. Support given by the Provincial Treasurer and his staff was overwhelming. As shown by the Provincial & District Treasury staff, their eagerness and willingness to learn and whilst working at same time, was very high.

2. Whilst working in the two District Treasury Office, one of the things noted was that, the District and LLG Database was not properly maintained.

   Especially, the Cash Book Balances were not properly maintained. That in itself demonstrated that, officers LACK BASIC ACCOUNTING KNOWLEDGE.

3. Memoranda Records not properly kept.

a) OJT & Mentoring

   There is a high demand for OJT & Coaching/Mentoring on these key areas:-
   1. Annual Financial Statement
   2. PGAS Bank Reconciliation
   3. PGAS Operations.
   4. Basic Accounting Concepts

   To enhance skills or transfer skills and knowledge would be through
   ◆ On-The-Job Training
   ◆ Coaching
   ◆ Mentoring

   At least one or two more visits to the Province to conduct OJT and Coaching/Mentoring is highly recommended.

   PCaB has a lot to offer to non PCaB Provinces, in terms of ICT training, Templates, fixing or solution finding for finance & accounting matters and management tools.

b) Other Work Shops.

   There is a need for a Accounting Treatment workshop.
